The IAES Publications, Indonesia.

Dear Sir,

**Sub:** Submission of Original Research Manuscript for Journal Publication – Reg.

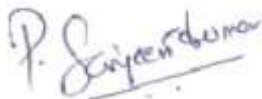

I like to submit as a corresponding author of the original research article entitled “Periodic Perturbation Method for Controlling Chaos for a Positive Output DC-DC Luo Converter” for possible publication in our esteemed and reputed International Journal of Power Electronics and Drives, IAES Publications. Research paper work carried out with simulation modeling of proposed entire DC-DC drive system and hardware prototype implementation for validation of the proposed concept.

Complete set of simulation and experimental results are provided in the paper shows good agreement with the developed theoretical background.

We hope our research manuscript could satisfy you and your panel of Juries for possible publication. I look forward to hearing from you.

Thanking you,

Yours Faithfully

Dr. P. Sanjeevikumar
